Contract OTD Target	88%

1. Parties and Scope

This synthetic supplier agreement covers purchases from Global Textile Supply (Supplier ID SUP010), Vietnam, for textile and related materials used by the demonstration enterprise.

2. Delivery Commitment

Global Textile Supply will target at least 88% on-time delivery against confirmed dates. Standard planning lead time is 21 calendar days.

3. Performance Review

Performance below 82% on-time delivery requires a supplier recovery discussion. A delay rate above 25% for two consecutive review periods triggers an executive supplier review and alternate-source assessment.

4. Quality and Recovery

Material quality issues and late deliveries must be documented with corrective actions. Critical recovery plans should include revised production and shipping dates and a named supplier owner.
